DIN EN ISO 23874:2018-12 (E)

Natural gas - Gas chromatographic requirements for hydrocarbon dewpoint calculation (ISO 23874:2006)

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Principle 6

4 Materials 6

5 Apparatus 6

6 Performance requirements 7

7 Sampling 7

8 Analytical procedure 8

9 Methods of test 11

10 Uncertainty in composition 12

11 Calculation of dewpoint temperature 12

12 Analytical uncertainty contribution to dewpoint temperature 12

Annex A (informative) Typical analytical conditions for C to C analysis 145 12

Annex B (informative) Validation of fraction data 16

Annex C (informative) Precision of area ratio 20

Annex D (informative) Recommendations on sample calibration gas introduction 24

Annex E (informative) Calculation of fraction quantities, boiling points and component uncertainties 26
