## Nanotechnologies - Considerations for the measurement of nano-objects and their aggregates and agglomerates (NOAA) in environmental matrices

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
|                 | Foreword .....   | iv          |
|                 | Introduction .....   | v           |
| <b>1</b>        | <b>Scope</b> .....   | <b>1</b>    |
| <b>2</b>        | <b>Normative references</b> .....  | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions</b> .....   | <b>1</b>    |
| <b>4</b>        | <b>Symbols and abbreviated terms</b> .....   | <b>3</b>    |
| <b>5</b>        | <b>General considerations</b> .....  | <b>3</b>    |
|                 | 5.1 General .....  | 3           |
|                 | 5.2 Considerations for determining background levels of NM .....                                     | 4           |
|                 | 5.3 Distribution of NM in the environment .....  | 4           |
|                 | 5.4 Interaction with materials in environmental matrices .....                                       | 5           |
|                 | 5.5 Real-time measurements versus integrated versus spot sampling .....                              | 7           |
|                 | 5.6 Preparing samples for analysis .....   | 8           |
|                 | 5.7 Characterization and quantitation of NOAA .....  | 8           |
| <b>6</b>        | <b>Considerations for sampling and analysing NOAA in air</b> .....                                   | <b>8</b>    |
|                 | 6.1 General considerations .....   | 8           |
|                 | 6.2 Transformations and dispersion in the environment .....  | 9           |
|                 | 6.3 Sampling considerations .....  | 9           |
|                 | 6.4 Preparation for analysis .....   | 9           |
|                 | 6.5 Detection and quantitation .....   | 9           |
| <b>7</b>        | <b>Considerations for sampling and analysing NOAA in surface water</b> .....                         | <b>10</b>   |
|                 | 7.1 General .....  | 10          |
|                 | 7.2 Transformations and dispersion in the environment .....  | 10          |
|                 | 7.3 Sampling considerations .....  | 10          |
|                 | 7.4 Preparation for analysis .....   | 11          |
|                 | 7.5 Detection and quantitation .....   | 11          |
|                 | 7.5.1 Metal NM .....   | 11          |
|                 | 7.5.2 Metal oxide NM .....   | 12          |
|                 | 7.5.3 Carbon-based NM .....  | 12          |
| <b>8</b>        | <b>Considerations for sampling and analysing NOAA in sea water</b> .....                             | <b>12</b>   |
|                 | 8.1 Transformations and interaction with materials in the environment .....                          | 12          |
|                 | 8.2 Sampling considerations .....  | 12          |
|                 | 8.3 Preparation for analysis .....   | 13          |
|                 | 8.4 Detection and quantitation .....   | 13          |
| <b>9</b>        | <b>Considerations for sampling and analysing NOAA in sediment</b> .....                              | <b>13</b>   |
|                 | 9.1 Transformations and interaction with materials in the environment .....                          | 13          |
|                 | 9.2 Sampling considerations .....  | 13          |
|                 | 9.3 Preparation for analysis .....   | 14          |
|                 | 9.4 Detection and quantitation .....   | 14          |
| <b>10</b>       | <b>Considerations for sampling and analysing NOAA in soil</b> .....                                  | <b>14</b>   |
|                 | 10.1 Transformations and interaction with materials in the environment .....                         | 14          |
|                 | 10.2 Sampling considerations .....   | 15          |
|                 | 10.3 Preparation for analysis .....  | 15          |
|                 | 10.4 Detection and quantitation .....  | 15          |
|                 | <b>Annex A (informative) Instrumentation/techniques used to quantify and characterize NOAA</b> ..... | <b>16</b>   |
|                 | <b>Bibliography</b> .....  | <b>23</b>   |
