ISO 11003-1:2019 (E)

Adhesives — Determination of shear behaviour of structural adhesives — Part 1: Torsion test method using butt-bonded hollow cylinders

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

6 Test specimen

6.1 Preparation
6.1.1 Substrate material
6.1.2 Preparation of the surface
6.1.3 Bonding
6.1.4 Adhesive bond
6.1.5 Dimensions
6.2 Number of specimens

7 Test conditions

7.1 Temperature
7.2 Shear rate

8 Procedure

9 Calculations

10 Precision

11 Test report
