ISO 21391:2019-08 (E)

Nuclear criticality safety - Geometrical dimensions for subcriticality control - Equipment and layout

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Subcriticality dimensions 3

5 Performingspecificsubcriticalitycalculations 3

6 Subcriticality limits 4
6.1 Identification and limitation of subcriticality dimensions 4
6.2 Conditions influencing the subcriticality limits 4
6.2.1 General 4
6.2.2 Normal operations and abnormal conditions 5

7 Actual dimension control 6
7.1 Compliance of actual dimension values with the subcriticality limits 6
7.2 Management of non-compliance 6

Annex A (informative) Main stages for subcriticality limits determination 7

Annex B (informative) Example 8
