## Leather — Chemical determination of the preservative (TCMTB, PCMC, OPP, OIT) content in leather by liquid chromatography — Part 1: Acetonitrile extraction method

---

### Contents

|         |  |
|---------|--|
|         | Foreword                                 |
| 1       | Scope                                    |
| 2       | Normative references                     |
| 3       | Terms and definitions                    |
| 4       | Principle                                |
| 5       | Reagents                                 |
| 5.1     | General                                  |
| 5.2     | Target compounds                         |
| 5.3     | Preparation of calibration solutions     |
| 6       | Apparatus and materials                  |
| 7       | Testing procedure                        |
| 7.1     | Sampling and sample preparation          |
| 7.2     | Extraction procedure                     |
| 7.3     | Analytical procedure                     |
| 8       | Calculation                              |
| 9       | Test report                              |
| Annex A | (informative) Chromatographic conditions |
| A.1     | Overview                                 |
| A.2     | HPLC with UV detector                    |
| A.3     | HPLC with MS detector                    |
| A.3.1   | LC-MS for PCMC and OPP                   |
| A.3.2   | LC-MS for OIT                            |
| A.3.3   | LC-MS for TCMTB:                         |
