ISO 17234-1:2020 (E)

Leather — Chemical tests for the determination of certain azo colourants in dyed leathers — Part 1: Determination of certain aromatic amines derived from azo colourants

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 General

5 Principle

6 Safety precautions

7 Apparatus

8 Reagents

9 Sampling and preparation of samples

10 Procedure

- 10.1 Degreasing
- 10.2 Reductive cleavage
- 10.3 Liquid-liquid extraction
- 10.4 Check of the analytical system

11 Chromatographic analyses

12 Calibration

13 Evaluation

- 13.1 Calculation of amine in the sample
- 13.2 Reliability of the method

14 Test report

Annex A (informative) Chromatographic analyses

- A.1 Preliminary remark
- A.2 High-performance liquid chromatography (HPLC)
- A.2.1 High-performance liquid chromatography/diode array detector (HPLC-DAD)
- A.2.2 High-performance liquid chromatography/mass selective detector (HPLC-MS)
- A.3 Capillary gas chromatography (GC-MS)
- A.4 Capillary electrophoresis (CE-DAD)
- A.5 Thin-layer chromatography (TLC); HPTLC or TLC only for semiquantitative confirmation
- A.5.1 General
- A.5.2 Derivatization procedure

Annex B (informative) Reliability of the method

Annex C (informative) Assessment guide — Interpretation of analytical results2 2 From ISO 14362-1:2017, Annex C.

C.1 General
C.1.1 General
C.1.2 Determination of 4-aminoazobenzene
C.1.3 False-positive results
C.1.4 In the case of levels per amine component ≤ 30 mg/kg
C.1.5 In the case of levels per amine component > 30 mg/kg
C.2 Guidance on procedure and explanations if false-positive results are possible
C.2.1 False-positive results from chromatographic problems
C.2.1.1 False-positive results from isomers
C.2.1.2 False-positive results from sources other than azo colourants
C.2.1.2.1 False-positive results from high temperature in GC-injector
C.2.1.2.2 False-positive results generated from chemical procedure
C.2.1.2.3 False-positive results from colourants

Annex D (informative) Procedure for liquid/liquid extraction without diatomaceous earth

D.1 Preliminary remark
D.2 Additional reagents used
D.3 Additional apparatus used
D.4 Procedure
D.4.1 Preparing sample
D.4.2 Degreasing
D.4.3 Reductive cleavage
D.4.4 Separation and concentration of the amines
D.4.5 Amine detection and quantification
D.4.6 Check procedure
