ISO/TS 80004-8:2020 (E)

Nanotechnologies — Vocabulary — Part 8: Nanomanufacturing processes

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Terms related to general aspects

5 Terms related to directed assembly

6 Terms related to self-assembly processes

7 Terms related to synthesis

- 7.1 Gas process phase — Physical methods
- 7.2 Gas process phase — Chemical methods
- 7.2.1 Flame synthesis processes
- 7.2.2 Other terms
- 7.3 Liquid process phase — Physical methods
- 7.4 Liquid process phase — Chemical methods
- 7.5 Solid process phase — Physical methods
- 7.6 Solid process phase — Chemical methods

8 Terms related to fabrication

- 8.1 Nanopatterning lithography
- 8.2 Deposition processes
- 8.3 Etching processes
- 8.4 Printing and coating

Annex A (informative) Identification of output resulting from defined synthesis processes
