Natural gas - Determination of composition with defined uncertainty by gas chromatography - Part 4: Determination of nitrogen, carbon dioxide and C<(Index)1> to C<(Index)5> and C<(Index)6+> hydrocarbons for a laboratory and on-line measuring system using two columns

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	2
3	Principle	2
4	Materials	2
5	Apparatus	2
6	Procedure	4
6.1	Gas chromatographic operating conditions	4
6.2	Performance requirements -- Peak resolution	7
6.3	Determination -- Outline of the analysis	8
7	Expression of results	8
7.1	Calculation	8
7.2	Precision and accuracy	8
8	Test report	8
Annex A (informative) Procedure for setting valve timings and restriction setting		9
Annex B (informative) Final time		10
Annex C (informative) Typical precision values		11
Bibliography		12
