Natural gas - Determination of composition with defined uncertainty by gas chromatography - Part 4: Determination of nitrogen, carbon dioxide and C<(Index)1> to C<(Index)5> and C<(Index)6+> hydrocarbons for a laboratory and on-line measuring system using two columns

| Contents | | Page |
|---|---|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 2 |
| 3 | Principle | 2 |
| 4 | Materials | 2 |
| 5 | Apparatus | 2 |
| 6 | Procedure | 4 |
| 6.1 | Gas chromatographic operating conditions | 4 |
| 6.2 | Performance requirements -- Peak resolution | 7 |
| 6.3 | Determination -- Outline of the analysis | 8 |
| 7 | Expression of results | 8 |
| 7.1 | Calculation | 8 |
| 7.2 | Precision and accuracy | 8 |
| 8 | Test report | 8 |
| Annex A (informative) Procedure for setting valve timings and restriction setting | | 9 |
| Annex B (informative) Final time | | 10 |
| Annex C (informative) Typical precision values | | 11 |
| Bibliography | | 12 |
