Solid recovered fuels — Specifications and classes

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Symbols and abbreviations

5 Principles

6 Classification

7 Specifications

- 7.1 General
- 7.2 Origin
- 7.3 Traded forms of solid recovered fuels
- 7.4 Properties obligatory to specify
- 7.5 Properties non-obligatory to specify

8 Compliance rules

- 8.1 Compliance rules for classification
- 8.1.1 General compliance rules
- 8.1.2 Start-up or considerable changes in the production
- 8.1.3 Exemptions
- 8.2 Compliance rules for specification
- 8.2.1 General compliance rules
- 8.2.2 Exemptions

9 Requirements and declaration of conformity

Annex A (normative) Template for the specification of solid recovered fuels

Annex B (informative) Fuel preparation

Annex C (informative) Template for declaration of conformity

Annex D (informative) Calculation of standard deviation, median and 80th percentile

- D.1 Standard deviation
- D.2 Median
- D.3 80th percentile

Annex E (informative) Examples of establishing of compliance with SRF classification

- E.1 General
- E.2 Compliance SRF classification for a 30 000 tonnes annual production plant
- E.3 Compliance SRF classification for a 100 000 tonnes annual production plant
- E.4 Compliance SRF classification for 5 000 tonnes production

Annex F (informative) Examples of establishing of compliance with SRF specification
