ISO 23508:2021-11 (E)

Solution-polymerized SBR - Evaluation methods of viscoelastic properties

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Test formulation 1

5 Procedure for sample preparation 2
5.1 General 2
5.2 First stage 3
5.3 Second stage 3
5.4 Third stage 4

6 Testing of the uncured mix 4

7 Evaluation of vulcanization characteristics 5
7.1 General 5
7.2 Evaluation according to oscillating disc curemeter test 5
7.3 Evaluation according to rotorless curemeter test 5

8 Evaluation of dynamic viscoelastic properties 5
8.1 General 5
8.2 Sample preparation 6
8.3 Test equipment and deformation mode 6
8.4 Evaluation of strain dependency 6
8.5 Evaluation of temperature dependency 7
8.6 Expression of test results 8

9 Precision 8

10 Test report 8

Annex A (informative)Evaluationoffillerdispersibility 10

Annex B (informative)Datareliability 11

Annex C (informative) Examples of viscoelastic measurement 12

Annex D (informative) Payne effect 15

Annex E (informative) Precision 16
