Solution-polymerized SBR - Evaluation methods of viscoelastic properties

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Test formulation	1
5	Procedure for sample preparation	2
5.1	General	2
5.2	First stage	3
5.3	Second stage	3
5.4	Third stage	4
6	Testing of the uncured mix	4
7	Evaluation of vulcanization characteristics	5
7.1	General	5
7.2	Evaluation according to oscillating disc curemeter test	5
7.3	Evaluation according to rotorless curemeter test	5
8	Evaluation of dynamic viscoelastic properties	5
8.1	General	5
8.2	Sample preparation	6
8.3	Test equipment and deformation mode	6
8.4	Evaluation of strain dependency	6
8.5	Evaluation of temperature dependency	7
8.6	Expression of test results	8
9	Precision	8
10	Test report	8
Annex A (informative)	Evaluation of filler dispersibility	10
Annex B (informative)	Data reliability	11
Annex C (informative)	Examples of viscoelastic measurement	12
Annex D (informative)	Payne effect	15
Annex E (informative)	Precision	16
