## Solution-polymerized SBR - Evaluation methods of viscoelastic properties

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Test formulation .....	1
5	Procedure for sample preparation .....	2
5.1	General .....	2
5.2	First stage .....	3
5.3	Second stage .....	3
5.4	Third stage .....	4
6	Testing of the uncured mix .....	4
7	Evaluation of vulcanization characteristics .....	5
7.1	General .....	5
7.2	Evaluation according to oscillating disc curemeter test .....	5
7.3	Evaluation according to rotorless curemeter test .....	5
8	Evaluation of dynamic viscoelastic properties .....	5
8.1	General .....	5
8.2	Sample preparation .....	6
8.3	Test equipment and deformation mode .....	6
8.4	Evaluation of strain dependency .....	6
8.5	Evaluation of temperature dependency .....	7
8.6	Expression of test results .....	8
9	Precision .....	8
10	Test report .....	8
Annex A (informative)	Evaluation of filler dispersibility .....	10
Annex B (informative)	Data reliability .....	11
Annex C (informative)	Examples of viscoelastic measurement .....	12
Annex D (informative)	Payne effect .....	15
Annex E (informative)	Precision .....	16
Bibliography .....		18
