

ISO 23170:2022-06 (E)

Surface chemical analysis - Depth profiling - Non-destructive depth profiling of nanoscale heavy metal oxide thin films on Si substrates with medium energy ion scattering

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Principle and recommendations of MEIS analysis		1
5 MEIS analysis		2
6 MEIS spectra simulation		2
7 Reporting MEIS analysis results		5
Annex A (informative) Interlaboratory test report		6
Annex B (informative) List of MEIS spectra simulation program sources and a procedure of MEIS spectra simulation using PowerMeis		19
Annex C (informative) Reliability of the IAEA electronic stopping power data		22
Annex D (informative) Fitting parameters A, B, C, D from the IAEA database		24
Bibliography		29
