# ISO 23669:2022-11 (E)

## Corrosion of metals and alloys - Requirements for localised corrosion and environmentally assisted cracking testing of additively manufactured metals and alloys

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Normative references ..... 1

3 Termsanddefinitions ..... 1

4 Material characterization ..... 2

5 Tensile properties ..... 3

6 Localized corrosion testing ..... 3

7 Environmentally assisted cracking testing ..... 4

8 Test report ..... 5

Bibliography ..... 6
