## Fine bubble technology - Environmental applications - Part 1: Inspection method using online particle counter in dissolved air flotation (DAF) plant

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	2
5	BVC measurement technique .....	2
5.1	Test equipment .....	2
5.2	Procedure .....	3
6	Bubble bed depth measurement technique .....	4
6.1	Test equipment .....	4
6.2	Procedure .....	5
7	Advantages and limitations .....	6
7.1	Advantages .....	6
7.2	Limitations .....	7
Annex A (informative) Measurement of bubble size and size distribution by PCM .....		8
Annex B (informative) Height from the water surface to the bubble bed depth .....		9
Annex C (informative) Comparison of the results of bubble bed depth obtained by using the naked eye and by using a particle counting method .....		10
Annex D (informative) Measuring bubble bed depth of DAF process in full scale .....		12
Annex E (informative) Change of bubble bed depth at different operating conditions .....		14
Annex F (informative) Contribution of particles and bubbles in particle count measurements .....		15
Annex G (informative) Effect of sampling tube length .....		17
Bibliography .....		18
