ISO 5668:2023-07 (E)

Corrosion of metals and alloys - Guidelines and requirements for corrosion testing in simulated environment of deep-sea water

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Principle 1

5 Testing equipment 2
5.1 General 2
5.2 Test chamber 4
5.3 Environment controlling system 4
5.4 Experimental system 5
5.5 Safety instructions 7

6 Specimens 8
6.1 General 8
6.2 Immersion test specimen 8
6.3 Crevice corrosion specimen 9
6.4 Stress corrosion cracking specimen 9
6.5 Electrochemical test specimen 10
6.6 Other type of specimen 10

7 Testing procedure 11
7.1 Arrangement of specimens 11
7.2 Preparation of test solutions 11
7.3 Test conditions 11
7.4 Immersion test 13
7.5 Crevice corrosion test 13
7.6 Galvanic corrosion test 13
7.7 Stress corrosion cracking test 14
7.8 Electrochemical measurement 15

8 Evaluation of test specimens 15

9 Test report 16
