## Rubber compounding ingredients - Natural calcium carbonate - Test methods

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Sampling .....	2
4	Methods of test .....	2
5	Test report .....	10
Annex A (normative) Determination of total copper content -- Atomic absorption method .....		11
Annex B (normative) Determination of total manganese content -- Atomic absorption method .....		14
Annex C (normative) Determination of total iron content -- Atomic absorption method .....		17
Annex D (informative) Classification of natural calcium carbonate and typical physical and chemical properties .....		20
