

ISO 19735:2023-12 (E)

Corrosion of metals and alloys - Corrosivity of atmospheres - Mapping areas of increased risk of corrosion

| Contents | Page |
|---|-------------|
| Foreword | iv |
| Introduction | v |
| 1 Scope | 1 |
| 2 Normative references | 1 |
| 3 Terms and definitions | 1 |
| 4 Mapping of corrosivity | 2 |
| 4.1 Dose-response functions..... | 2 |
| 4.2 Environmental data used as input to dose-response functions..... | 2 |
| 4.3 Transformation of the environmental data to a common grid system..... | 2 |
| 4.4 Calculation and presentation of corrosion..... | 2 |
| 5 Mapping of lifetime | 3 |
| 6 Mapping of corrosion cost | 3 |
| 7 Mapping errors | 4 |
| Annex A (informative) ISO 9223 dose-response functions | 5 |
| Annex B (informative) ICP materials functions | 6 |
| Annex C (informative) Example of environmental data sources | 8 |
| Annex D (informative) Procedure for calculation of lifetimes | 9 |
| Bibliography | 10 |
