## Textiles - Synthetic filament yarns - Test methods for crimp properties of textured yarns

---

| <b>Contents</b>                                   |  | <b>Page</b> |
|---|--|-------------|
| Foreword .....                                    |  | iv          |
| 1   | Scope .....  | 1           |
| 2   | Normative references .....                             | 1           |
| 3   | Terms and definitions .....                            | 1           |
| 4   | Principle .....  | 1           |
| 5   | Reagents .....   | 2           |
| 6   | Apparatus .....  | 2           |
| 7   | Sampling .....   | 4           |
| 8   | Standard atmosphere for conditioning and testing ..... | 4           |
| 9   | Preparation of test specimen .....                     | 4           |
| 9.1   | Tension for reeling .....                              | 4           |
| 9.2   | Turns of reel .....                                    | 5           |
| 9.3   | Reeling .....  | 5           |
| 9.4   | Number of tests .....                                  | 5           |
| 9.5   | Conditioning .....                                     | 6           |
| 10  | Test procedure .....                                   | 6           |
| 10.1  | Crimp development .....                                | 6           |
| 10.1.1  | Method A -- Hot air method .....                       | 6           |
| 10.1.2  | Method B -- Hot water method .....                     | 6           |
| 10.2  | Measuring lengths .....                                | 7           |
| 11  | Calculation and expression of results .....            | 8           |
| 11.1  | Crimp contraction .....                                | 8           |
| 11.2  | Crimp modulus .....                                    | 8           |
| 11.3  | Crimp stability .....                                  | 9           |
| 11.4  | Test results .....                                     | 9           |
| 12  | Precision .....  | 9           |
| 13  | Test report .....                                      | 9           |
| Annex A (informative) Precision experiments ..... |  | 10          |
| Bibliography .....                                |  | 12          |
