## Bunkering - Meter verification using master Coriolis mass flow meter

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 Scope .....		1
2 Normative references .....		1
3 Terms and definitions .....		1
4 Safety, health and environment during meter verification .....		3
5 Metrological requirements for master meter .....		4
5.1 General .....		4
5.2 Master meter requirements .....		4
5.3 Maintenance of master meter status .....		5
6 Meter verification process .....		5
6.1 General .....		5
6.2 Requirements .....		5
6.3 Meter verification setup .....		5
6.4 Procedures .....		8
6.4.1 Pre-test meeting .....		8
6.4.2 Steps and actions .....		8
6.5 Documentation .....		9
Annex A (informative) Safety, health and environment .....		10
Annex B (informative) Uncertainty budget for meter verification .....		13
Annex C (normative) Critical performance parameter checklist for meter under test .....		14
Annex D (normative) Meter verification report .....		15
Bibliography .....		17
