Coal - Froth flotation testing - Part 2: Sequential evaluation

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principle	1
5	Sample	2
6	Apparatus	2
7	Flotation conditions	2
7.1	Collector dosage	2
7.2	Frother dosage	2
7.3	Solids content	2
7.4	Air flow rate	2
7.5	Test temperature	3
8	Procedure	3
8.1	Initial procedure	3
8.2	Initial separation	3
8.3	Subsequent separations	3
8.4	Analysis of concentrate and tailings	3
9	Calculation of results	4
10	Test report	4
Annex A (informative) Worked example of calculation of results		6
Annex B (informative) Presentation of results		11
Bibliography		15
