## Rubber - Measurement of vulcanization characteristics using curemeters - Part 1: Introduction

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Basic principles .....	2
5	Types of curemeter .....	4
6	Apparatus .....	5
6.1	General .....	5
6.2	Dies .....	6
6.3	Die closure .....	7
6.4	Moving member .....	7
6.5	Movement .....	7
6.6	Stiffness measurement .....	8
6.7	Heating and temperature control .....	8
6.8	Calibration .....	8
7	Test piece .....	8
8	Vulcanization temperature .....	8
9	Conditioning .....	8
10	Procedure .....	9
10.1	Preparation for test .....	9
10.2	Loading the curemeter .....	9
11	Expression of results .....	9
Annex A (informative) Effect of thermal parameters on measured cure properties .....		10
Bibliography .....		13
