## Solid biofuels - Determination of length and diameter of pellets

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | iv          |
| Introduction .....    |  | vi          |
| 1                     | Scope .....  | 1           |
| 2                     | Normative references .....   | 1           |
| 3                     | Terms and definitions .....  | 1           |
| 4                     | Principle .....  | 2           |
| 5                     | Apparatus .....  | 2           |
| 6                     | Sample preparation .....   | 4           |
| 6.1                   | General .....  | 4           |
| 6.2                   | Preparation requirements for pellet diameter .....   | 4           |
| 6.3                   | Preparation requirements for pellet length and pellet length fractions .....                         | 4           |
| 7                     | Procedure .....  | 4           |
| 7.1                   | Determination of the parameters to be analysed .....   | 4           |
| 7.2                   | Determination of the pellet diameter class .....   | 5           |
| 7.3                   | Measuring the length of an individual pellet .....   | 5           |
| 7.3.1                 | General .....  | 5           |
| 7.3.2                 | Option A: Measuring the length of an individual pellet with a measuring block (5.2) .....            | 5           |
| 7.3.3                 | Option B: Measuring the length of an individual pellet with a calliper .....                         | 6           |
| 7.4                   | Determination of the number of pellets above a maximum length .....                                  | 6           |
| 7.5                   | Determination of the share of pellets > 40 mm and the length of the longest pellet .....             | 6           |
| 7.6                   | Determination of the share of pellets of any other specified length, including pellets < 10 mm ..... | 7           |
| 7.7                   | Determination of the average length of pellets .....   | 7           |
| 8                     | Calculations .....   | 7           |
| 8.1                   | Pellet diameter class .....  | 7           |
| 8.2                   | Share of a specified fraction of pellets .....   | 7           |
| 8.2.1                 | General .....  | 7           |
| 8.2.2                 | Share of fractions including coarse pellet fines .....   | 8           |
| 8.2.3                 | Share of pellets > 40 mm .....   | 8           |
| 8.3                   | Average pellet length .....  | 9           |
| 9                     | Performance characteristics .....  | 9           |
| 10                    | Test report .....  | 9           |
| Annex A (informative) | Devices for the determination of the length of pellets with a diameter of 8 mm or above .....        | 11          |
| Annex B (informative) | Comparative studies for determination of the pellet length .....                                     | 13          |
| Annex C (informative) | Example of a construction plan for a measuring block .....   | 15          |
| Bibliography .....    |  | 18          |
