Analysis of natural gas - Determination of sulfur compounds - Determination of hydrogen sulfide by laser absorption spectroscopy

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principle	1
5	Reagents and material	2
5.1	Calibration gas	2
5.2	Methane	2
5.3	Absorption solution for hydrogen sulfide	3
6	Measurement device	3
6.1	General requirements	3
6.2	Laser generator	3
6.3	Pretreatment system	3
6.3.1	Filter unit	3
6.3.2	Pressure control unit	3
6.3.3	Flow control unit	3
7	Sample	3
8	Measurement	4
8.1	Preparation	4
8.2	Calibration of analyser	4
8.2.1	Calibration frequency	4
8.2.2	Calibration procedure	4
8.2.3	Calibration method	4
9	Analysis	4
10	Precision and measurement uncertainty	4
10.1	Repeatability	4
10.2	Uncertainty evaluation	5
11	Test report	5
Annex A (informative) Example of statistical procedure for estimation of the repeatability		6
Bibliography		9
