ISO 21037:2026-03 (E)

Adhesives - Guideline for separating adhesively bonded joints enabling repair and improving recycling

Contents

Page

Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Procedure **1**

4.1 Systematics 1

4.2 Mechanical methods for separating adhesively bonded joints 2

4.2.1 Cutting 2

4.2.2 Peeling 2

4.2.3 Stretching of the adhesive carrier 3

4.2.4 Elongation of the adherends 3

4.3 Physical methods for separating adhesively bonded joints 3

4.3.1 Temperature effects 3

4.3.2 Electricity 3

4.3.3 Solvents 4

4.4 Chemical methods for separating adhesively bonded joints 4

4.4.1 Expanding and blowing agents 4

4.4.2 Decomposition of the adhesive 4

4.4.3 Decomposition of the adherent 4

Annex A (informative) **Debonding — Established examples** **5**

Bibliography **9**
