Foreword ... **iv**

Introduction ... **vi**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 Symbols and abbreviated terms ... **4**

5 Evaluation procedures ... **5**

5.1 Evaluation of the characteristic transfer curve, density range, pixel size and density contrast sensitivity ... 5

5.1.1 Stepped density target ... 5

5.1.2 Characteristic transfer curve (CTC) ... 5

5.1.3 Density range (D_R) ... 6

5.1.4 Pixel size (P) ... 6

5.1.5 Density contrast sensitivity (ΔD_{CS}) ... 6

5.2 Evaluation of the spatial frequency maximum value, digitiser unsharpness, basic spatial resolution of the digitiser and modulation transfer function ... 8

5.2.1 General ... 8

5.2.2 Spatial frequency maximum value (f_C) ... 8

5.2.3 Digitiser unsharpness (U_D) ... 8

5.2.4 Determination of the modulation transfer function (MTF) ... 8

5.2.5 Determination of the basic spatial resolution (SR_b^D) of the digitiser ... 8

5.3 Other evaluations ... 9

5.3.1 Blooming or flare ... 9

5.3.2 Digitisation artefacts ... 9

5.3.3 Geometric distortions ... 9

6 Presentation of results ... **9**

7 Qualitative control and long-term stability of the digitisation system ... **11**

7.1 Normal check ... 11

7.2 Extended check ... 12

7.3 Test periods and long-term stability ... 12

Annex A (informative) **MTF calculation** ... **13**

Annex B (normative) **Standard reference film** ... **15**

Bibliography ... **18**
