## Nuclear facilities - Ventilation penetrations for shielded enclosures

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		1
4 <b>Design of ventilation penetrations</b> .....		2
4.1 <b>General principles</b> .....		2
4.2 <b>Conventional ventilation penetrations</b> .....		3
4.3 <b>Cast iron helix technique</b> .....		3
Annex A (normative) <b>Specifications for the design of cast iron helixes</b> .....		11
Annex B (informative) <b>Rules for the definition of cast iron helixes</b> .....		17
Annex C (informative) <b>Examples of design of conventional penetrations</b> .....		20
Bibliography .....		22
