

ISO 11344:2004-04 (E)

Rubber, raw synthetic - Determination of the molecular-mass distribution of solution polymers by gel permeation chromatography

Contents		Page
Foreword		iv
1	Scope	1
2	Normative references	1
3	Principle	1
4	General	1
5	Reagents and materials	2
6	Apparatus	3
7	Analytical conditions	4
8	Procedure	4
9	Expression of results	7
10	Precision (only for instrumental software procedure)	8
11	Test report	9
Annex A (informative) Molecular-mass parameters determined by instrumental software		11
Annex B (informative) Calculation of molecular-mass parameters by manual procedure		15
Annex C (informative) Comparison of results obtained by automatic procedure (software) and manual procedure		19
Annex D (informative) Guidance for using precision results		20
