

# DIN EN 14970:2006-04 (E)

## Textiles - Knitted fabrics - Determination of stitch length and yarn linear density in weft knitted fabrics

---

<b>Contents</b>		<b>Page</b>
page	Foreword .....	3
	Introduction .....	4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	Apparatus .....	6
5	Conditioning and testing atmosphere .....	6
6	Method A: Stitch length .....	6
7	Method B: Linear density .....	8
8	Test report .....	8
	Annex A (informative) Example of exploitation of the test method "barré analysis" .....	9
	Annex B (informative) Example of measurement on typical knitted fabrics .....	11
	Annex C (informative) Statistical evaluation of the precision .....	12
	Bibliography .....	13
