

ISO 1817:2005-10 (E)

Rubber, vulcanized - Determination of the effect of liquids

Contents		Page
1	Scope	1
2	Normative references	1
3	Apparatus	2
4	Test liquids	3
5	Test pieces	4
5.1	Preparation	4
5.2	Dimensions	4
5.3	Time interval between vulcanization and testing	4
5.4	Conditioning	4
6	Immersion in the test liquid	5
6.1	Temperature	5
6.2	Duration	5
7	Procedure	5
7.1	General	5
7.2	Change in mass	6
7.3	Change in volume	6
7.4	Change in dimensions	7
7.5	Change in surface area	8
7.6	Change in hardness	8
7.7	Change in tensile stress-strain properties	9
7.8	Testing with liquid on one surface only	9
7.9	Determination of extractable matter	10
8	Test report	10
Annex A (normative) Reference liquids		12
A.1	Standard simulated fuels	12
A.2	Reference oils	13
A.3	Simulated service liquids	15
A.4	Chemical reagents	15
