## Remote handling devices for radioactive materials - Part 4: Power manipulators

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Applications of power manipulators .....	3
5	General features .....	4
6	Requirements .....	4
6.1	General aspects .....	4
6.2	Materials .....	6
6.3	Surface treatment .....	6
6.4	Design features .....	7
6.5	Electrical equipment .....	13
6.6	Dimensions of tongs with parallel jaws (standard tongs) .....	13
6.7	Dimensions of grip hooks .....	16
6.8	Dimensions of shoulder hooks .....	17
7	Operating devices and control systems .....	18
7.1	General .....	18
7.2	Push-buttons .....	18
7.3	Operating elements for one motion .....	19
7.4	Joysticks .....	19
7.5	Six-motion operating devices .....	19
7.6	Computer controlled systems .....	19
8	Manipulator vehicles .....	20
9	Special tongs and tools .....	20
10	Testing .....	22
10.1	General .....	22
10.2	Acceptance testing .....	22
10.3	Inspections and tests at regular intervals .....	22
11	Non-radioactive trial cells .....	23
11.1	General .....	23
11.2	Operator training .....	23
11.3	Manipulator system capability .....	23
11.4	Error minimization and failure recovery .....	23
11.5	Reliability assessments and maintenance planning .....	24
Annex A (normative) Electrical equipment for power manipulators .....		25
Bibliography .....		26
