DIN EN ISO 6144:2006-11 (E)

Gas analysis - Preparation of calibration gas mixtures - Static volumetric method (ISO 6144:2003)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principle 5

5 Apparatus 5

6 Procedure for preparing the calibration gas mixture 7

7 Calculation of the volume fraction of the calibration component in the gas mixture 10

8 Determination of the uncertainty in the concentration of the calibration component in the gas mixture 12

Annex A (informative) Example of an apparatus suitable for the preparation of calibration gas mixtures by the static volumetric method 15

Annex B (informative) Example of determination of the volume of metering syringes 18

Annex C (informative) Example of the determination of the uncertainty in the concentration of a calibration gas mixture prepared by the static volumetric method 20

Annex D (informative) Example of the determination of the stability, as a function of time, of prepared calibration gas mixtures 25
