DIN EN 1744-6:2006-12 (E)

Tests for chemical properties of aggregates - Part 6: Determination of the influence of r ecycled aggregate extract on the initial setting time of cement

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Definitions 4

4 Reagents 4

5 Apparatus 4

6 Principle 5

7 Sampling 5

8 Preparation of test portion 5

9 Procedure 5
9.1 General 5
9.2 Production of the aggregate extract 5
9.3 Determination of the standard consistence 5
9.4 Determination of the initial setting time 6

10 Calculation and expression of results 6

11 Test report 6
