Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principle 4

5 Reagents 5

6 Apparatus 5

7 Sampling 6

8 Procedure 6

9 Calculation and expression of results 8

10 Precision 8

11 Test report 8

Annex A (informative) Interferences 9

Annex B (informative) Titration apparatus settings 10

Annex C (informative) Example for a typical potentiometric titration curve 11

Annex D (informative) Statistical and other data derived from the results of inter-laboratory tests ... 12
