ISO 21078-2:2006-12 (E)

Determination of boron(III) oxide in refractory products - Part 2: Acid extraction method for the determination of boron(III) oxide i n binder components

Contents

Page

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Preparation of the test sample 1

5 Reagents 2

6 Mass of test portion for extraction 2

7 Preparation of the test solution 2

8 Blank solution 3

9 Classification of determination methods 3

10 Determination of boron(III) oxide by sodium hydroxide titrimetry 3

11 Determination of boron(III) oxide by inductived coupled plasma/atomic emission spectrometry 5

12 Curcumine absorption spectrophotometry (Rothocyanine method) 6

13 Quality assurance and control 9

14 Expression of test results 9
