

E DIN EN ISO 10426-5:2023-10 (E)

Erscheinungsdatum: 2023-09-15

Oil and gas industries including lower carbon energy - Cements and materials for well cementing - Part 5: Determination of shrinkage and expansion of well cement formulations at atmospheric pressure (ISO/DIS 10426-5:2023); English version prEN ISO 10426-5:2023

Contents

	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Determination of shrinkage or expansion under conditions of free access to water at atmospheric pressure — Annular ring test	2
4.1 General information	2
4.2 Apparatus	2
4.2.1 Mould	2
4.2.2 Water curing bath	4
4.2.3 Temperature measuring system	4
4.2.4 Atmospheric-pressure consistometer	5
4.2.5 Micrometer	5
4.3 Procedure	5
4.3.1 Preparation of the mould	5
4.3.2 Preparation of slurry	6
4.3.3 Filling of the moulds	6
4.3.4 Test period	6
4.4 Measurement and calculations	7
5 Determination of shrinkage or expansion under impermeable condition at atmospheric pressure — Annular ring test in a sealable bag	9
5.1 General information	9
5.2 Apparatus	9
5.2.1 Re-sealable bag	9
5.3 Procedure	10
6 Determination of bulk shrinkage or expansion under impermeable condition and atmospheric pressure — Membrane test	10
6.1 General information	10
6.2 Apparatus	10
6.2.1 Membrane	10
6.2.2 Water curing bath	10
6.2.3 Temperature-measuring system	11
6.2.4 Electronic scales	11
6.3 Procedure	11
6.3.1 Preparation of slurry	11
6.3.2 Curing	11
6.4 Measurement and calculations	12
Annex A (informative) Determination of stress generated by expansion at elevated pressure and temperature	14
Annex B (informative) Determination of shrinkage or expansion under conditions of free access to water at elevated pressure — Annular ring test	19
Bibliography	21
