|-------------------|---|-------------|
| Foreword.....     |   | v           |
| Introduction..... |   | vii         |
| <b>1</b>          | <b>Scope.....</b>   | <b>1</b>    |
| <b>2</b>          | <b>Normative references.....</b>  | <b>1</b>    |
| <b>3</b>          | <b>Terms and definitions.....</b>   | <b>2</b>    |
| <b>4</b>          | <b>Symbols and abbreviated terms.....</b>   | <b>10</b>   |
|                   | 4.1 Symbols.....  | 10          |
|                   | 4.2 Abbreviated terms.....  | 12          |
| <b>5</b>          | <b>Determining the relevant metocean parameters.....</b>                                    | <b>12</b>   |
|                   | 5.1 General.....  | 12          |
|                   | 5.2 Expert development of metocean criteria.....  | 13          |
|                   | 5.3 Selecting appropriate parameters for determining design actions and action effects..... | 13          |
|                   | 5.4 The metocean database.....  | 15          |
|                   | 5.5 Storm types in a region.....  | 15          |
|                   | 5.6 Directionality.....   | 15          |
|                   | 5.7 Extrapolation to extreme and abnormal conditions.....                                   | 15          |
|                   | 5.8 Metocean parameters for fatigue assessments.....  | 16          |
|                   | 5.9 Metocean parameters for short-term activities.....                                      | 17          |
|                   | 5.10 Metocean parameters for medium-term activities.....                                    | 18          |
| <b>6</b>          | <b>Water depth, tides and storm surges.....</b>   | <b>18</b>   |
|                   | 6.1 General.....  | 18          |
|                   | 6.2 Tides.....  | 19          |
|                   | 6.3 Storm surges.....   | 19          |
|                   | 6.4 Extreme water level.....  | 19          |
| <b>7</b>          | <b>Wind.....</b>  | <b>20</b>   |
|                   | 7.1 General.....  | 20          |
|                   | 7.2 Wind actions and action effects.....  | 21          |
|                   | 7.3 Wind profile and time-averaged wind speed.....  | 22          |
|                   | 7.4 Wind spectra.....   | 22          |
| <b>8</b>          | <b>Waves.....</b>   | <b>22</b>   |
|                   | 8.1 General.....  | 22          |
|                   | 8.2 Wave actions and action effects.....  | 23          |
|                   | 8.3 Sea-states — Spectral waves.....  | 24          |
|                   | 8.3.1 Wave spectrum.....  | 24          |
|                   | 8.3.2 Directional spreading.....  | 24          |
|                   | 8.3.3 Wave periods.....   | 24          |
|                   | 8.3.4 Wave kinematics — Velocities and accelerations.....                                   | 24          |
|                   | 8.4 Regular (periodic) waves.....   | 25          |
|                   | 8.4.1 General.....  | 25          |
|                   | 8.4.2 Wave period.....  | 25          |
|                   | 8.4.3 Wave kinematics — Velocities and accelerations.....                                   | 25          |
|                   | 8.4.4 Intrinsic, apparent and encounter wave periods.....                                   | 26          |
|                   | 8.5 Maximum height of an individual wave for long return periods.....                       | 27          |
|                   | 8.6 Linear and non linear wave models.....  | 27          |
|                   | 8.7 Wave crest elevation.....   | 27          |

|           |  |            |
|-----------|--|------------|
| <b>9</b>  | <b>Currents</b> .....  | <b>28</b>  |
| 9.1       | General.....   | 28         |
| 9.2       | Current velocities.....  | 28         |
| 9.3       | Current profile.....   | 29         |
| 9.4       | Current profile stretching.....  | 29         |
| 9.5       | Current blockage.....  | 29         |
| 9.6       | Tidal Currents.....  | 29         |
| <b>10</b> | <b>Other environmental factors</b> .....                                       | <b>30</b>  |
| 10.1      | Marine growth.....   | 30         |
| 10.2      | Tsunamis.....  | 30         |
| 10.3      | Seiches.....   | 30         |
| 10.4      | Sea ice and icebergs.....  | 31         |
| 10.5      | Snow and ice accretion.....  | 31         |
| 10.6      | Thunderstorms and Lightning.....   | 31         |
| 10.7      | Rainfall.....  | 31         |
| 10.8      | Squalls and Downbursts.....  | 31         |
| 10.9      | Internal Waves and Solitons.....   | 32         |
| 10.10     | Shelf Waves and Eddies.....  | 32         |
| 10.11     | Infragravity Waves.....  | 32         |
| 10.12     | Seawater Temperature.....  | 33         |
| 10.13     | Miscellaneous.....   | 33         |
| <b>11</b> | <b>Collection of metocean data</b> .....                                       | <b>33</b>  |
| 11.1      | General.....   | 33         |
| 11.2      | Common requirements.....   | 34         |
|           | 11.2.1 General.....  | 34         |
|           | 11.2.2 Instrumentation.....  | 34         |
| 11.3      | Meteorology.....   | 34         |
|           | 11.3.1 General.....  | 34         |
|           | 11.3.2 Weather observation and reporting for helicopter operations.....        | 34         |
|           | 11.3.3 Weather observation and reporting for weather forecasting services..... | 35         |
|           | 11.3.4 Weather observation and reporting for climatological purposes.....      | 35         |
| 11.4      | Oceanography.....  | 35         |
|           | 11.4.1 General.....  | 35         |
|           | 11.4.2 Measurements and observations.....                                      | 36         |
| 11.5      | Data quality control.....  | 36         |
| <b>12</b> | <b>Verification of Weather Forecast Information</b> .....                      | <b>36</b>  |
| 12.1      | General.....   | 36         |
| <b>13</b> | <b>Information concerning the annexes</b> .....                                | <b>36</b>  |
| 13.1      | Information concerning Annex A.....  | 36         |
| 13.2      | Information concerning the Regional Annexes.....                               | 37         |
|           | <b>Annex A (informative) Additional information and guidance</b> .....         | <b>38</b>  |
|           | <b>Annex B (informative) Northwest Europe</b> .....                            | <b>107</b> |
|           | <b>Annex C (informative) West Coast of Africa</b> .....                        | <b>117</b> |
|           | <b>Annex D (informative) Offshore Canada</b> .....                             | <b>128</b> |
|           | <b>Annex E (informative) Sakhalin/Sea of Okhotsk</b> .....                     | <b>158</b> |
|           | <b>Annex F (informative) Caspian Sea</b> .....                                 | <b>183</b> |
|           | <b>Annex G (informative) South East Asian Sea</b> .....                        | <b>201</b> |
|           | <b>Annex H (informative) Mediterranean Sea</b> .....                           | <b>224</b> |
|           | <b>Annex I (informative) Brazil</b> .....                                      | <b>246</b> |
|           | <b>Annex J (informative) US Gulf of Mexico</b> .....                           | <b>262</b> |
|           | <b>Annex K (informative) US Coast of California</b> .....                      | <b>312</b> |
|           | <b>Annex L (informative) Other US Waters</b> .....                             | <b>317</b> |
|           | <b>Bibliography</b> .....  | <b>321</b> |
