ISO 13702:2015-08 (E)

Petroleum and natural gas industries - Control and mitigation of fires and explosions on offshore production installations - Requirements and guidelines

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms, definitions, and abbreviated terms 1
3.1 Terms and definitions 1
3.2 Abbreviated terms 5

4 Objectives 6

5 Fire and explosion evaluation and risk management 7
5.1 Management system 7
5.2 Risk assessment and the risk management framework 7
5.3 Risk assessment process 7
5.4 Risk identification 7
5.5 Risk analysis 8
5.6 Risk evaluation 8
5.7 Risk treatment 8
5.7.1 General 8
5.7.2 Prioritization of risk treatment measures 9
5.8 Risk treatment in the context of offshore oil and gas operations 9
5.8.1 General 9
5.8.2 Design loads 9
5.8.3 Fire and explosion strategy and performance standards 10
5.8.4 Verification 10

6 Installation layout 11
6.1 Objectives 11
6.2 Functional requirements 11

7 Emergency shutdown systems and blowdown 11
7.1 Objective 11
7.2 Functional requirements 12

8 Control of ignition 12
8.1 Objective 12
8.2 Functional requirements 12

9 Control of spills 13
9.1 Objective 13
9.2 Functional requirements 13

10 Emergency power systems 13
10.1 Objective 13
10.2 Functional requirements 13

11 Fire and gas (F&G) detection systems 13

11.1 Objectives 13
11.2 Functional requirements 14

12 Active fire protection 14
12.1 Objectives 14
12.2 Functional requirements 14

13 Passive fire protection 15
13.1 Objectives 15
13.2 Functional requirements 15

14 Explosion mitigation and protection measures 16

14.1 Objective 16
14.2 Functional requirements 16

15 Response to fires and explosions 17
15.1 Objectives 17
15.2 Functional requirements 17

16 Inspection, testing, and maintenance 17
16.1 Objective 17
16.2 Functional requirements 17

Annex A (informative) Typical fire and explosion hazardous events 19

Annex B (normative) Guidelines to the control and mitigation of fires and explosions 24

Annex C (informative) Typical examples of design requirements for large integrated offshore installations 49

Bibliography 59
