European foreword 3

Foreword 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Termsanddefinitions 8

4 Symbols and abbreviated terms 9

5 Factors affecting the cracking-resistance of CRAs and other alloys in H2S- containing environments 10

6 QualificationandselectionofCRAsandotheralloyswithrespecttoSSC,SCC,and GHSC in H2S-containing environments 10
6.1 General 10
6.2 Evaluation of materials properties 11
6.2.1 Hardness of parent metals 11
6.2.2 Cracking-resistance properties of welds 11
6.2.3 Cracking-resistance properties associated with other fabrication methods 13
6.3 PREN 13

7 Purchasing information and marking 13
7.1 Information that should be supplied for material purchasing 13
7.2 Marking, labelling, and documentation 14

Annex A (normative) Environmental cracking-resistant CRAs and other alloys (including Table A.1 -- Guidance on the use of the materials selection tables) 15

Annex B (normative) QualificationofCRAsforH2 S-service by laboratory testing 61

Annex C (informative) Information that should be supplied for material purchasing 71

Annex D (informative) Materials chemical compositions and other information 73

Annex E (informative) Nominated sets of test conditions 89
