

DIN EN ISO 19900:2019-10 (E)

Petroleum and natural gas industries - General requirements for offshore structures (ISO 19900:2019); English version EN ISO 19900:2019

| Contents | | Page |
|---------------------------|--------------------------------------------------------------------|-----------|
| Foreword | | v |
| Introduction | | vi |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 2 |
| 4 | Symbols and abbreviated terms | 8 |
| 4.1 | Symbols..... | 8 |
| 4.2 | Abbreviated terms..... | 9 |
| 5 | Fundamental requirements | 9 |
| 5.1 | General..... | 9 |
| 5.2 | Structural integrity requirements..... | 10 |
| 5.3 | Functional requirements..... | 10 |
| 5.4 | Requirements for specific phases of the life of the structure..... | 11 |
| 5.4.1 | Planning..... | 11 |
| 5.4.2 | Construction and deployment..... | 11 |
| 5.4.3 | Structural integrity management..... | 11 |
| 5.4.4 | Decommissioning and removal..... | 11 |
| 5.5 | Requirements for durability and robustness..... | 12 |
| 5.5.1 | Durability, maintenance and inspection..... | 12 |
| 5.5.2 | Robustness..... | 12 |
| 6 | Basis for design/assessment | 13 |
| 6.1 | General..... | 13 |
| 6.2 | Platform location and orientation..... | 13 |
| 6.3 | Physical environmental conditions..... | 14 |
| 6.4 | Geotechnical and geophysical conditions..... | 14 |
| 6.4.1 | Marine site investigations..... | 14 |
| 6.4.2 | Seabed instability..... | 15 |
| 6.4.3 | Seabed disturbance..... | 15 |
| 6.5 | Specific design/assessment requirements..... | 16 |
| 6.5.1 | Topsides structures..... | 16 |
| 6.5.2 | Deck elevation..... | 16 |
| 6.5.3 | Splash zone..... | 17 |
| 6.5.4 | Stationkeeping systems..... | 17 |
| 6.5.5 | Conductor and riser systems..... | 17 |
| 6.5.6 | Foundations and anchoring..... | 17 |
| 6.5.7 | Additional operational requirements..... | 18 |
| 7 | Development of design/assessment situations | 18 |
| 7.1 | Hazards..... | 18 |
| 7.2 | Hazardous events..... | 18 |
| 7.3 | Exposure levels..... | 19 |
| 7.3.1 | General..... | 19 |
| 7.3.2 | Exposure level L1..... | 20 |
| 7.3.3 | Exposure level L2..... | 20 |
| 7.3.4 | Exposure level L3..... | 20 |

| | | |
|-----------|------------------------------------------------------------------------------|-----------|
| 7.4 | Design/assessment situations | 21 |
| 7.4.1 | General | 21 |
| 7.4.2 | Operational design/assessment situations | 21 |
| 7.4.3 | Extreme design/assessment situations | 22 |
| 7.4.4 | Abnormal design/assessment situations | 22 |
| 7.4.5 | Accidental design/assessment situations | 23 |
| 7.4.6 | Short duration design/assessment situations | 23 |
| 7.4.7 | Serviceability design/assessment situations | 24 |
| 8 | Limit state verification | 24 |
| 8.1 | General | 24 |
| 8.2 | Basic variables and representative values | 25 |
| 8.3 | Limit states | 26 |
| 8.3.1 | Categories of limit states | 26 |
| 8.3.2 | Ultimate limit states | 26 |
| 8.3.3 | Abnormal/accidental limit states | 27 |
| 8.3.4 | Serviceability limit states | 27 |
| 8.3.5 | Fatigue limit states | 27 |
| 8.4 | Limit state verification procedure | 28 |
| 9 | Actions | 28 |
| 9.1 | Classifications of actions | 28 |
| 9.2 | Permanent actions and their representative values | 29 |
| 9.3 | Operational actions and their representative values | 29 |
| 9.4 | Environmental actions and their representative values | 30 |
| 9.5 | Accidental actions and their representative values | 31 |
| 9.6 | Repetitive actions | 31 |
| 10 | Design values and partial factors | 32 |
| 10.1 | Design values of actions | 32 |
| 10.2 | Actions acting in combination | 32 |
| 10.2.1 | Principal and companion actions for the same action type | 32 |
| 10.2.2 | Principal and accompanying actions for specific design/assessment situations | 33 |
| 10.3 | Design values of resistance | 33 |
| 10.3.1 | General | 33 |
| 10.3.2 | Design values of materials including soils | 33 |
| 10.3.3 | Design values of geometric variables | 34 |
| 10.3.4 | Uncertainties in analysis models | 34 |
| 10.4 | Partial factors for operational and extreme design/assessment situations | 34 |
| 10.5 | Partial factors for abnormal and accidental design/assessment situations | 34 |
| 10.6 | Partial factors for serviceability design/assessment situations | 35 |
| 10.7 | Partial factors for fatigue design/assessment verification | 35 |
| 10.8 | Probabilistic modelling and analysis | 35 |
| 11 | Models and analysis | 35 |
| 12 | Quality management | 36 |
| 12.1 | General | 36 |
| 12.2 | Installation inspection | 36 |
| 12.3 | In-service inspection, maintenance and repair | 36 |
| 12.4 | Records and documentation of design and construction | 37 |
| 12.4.1 | General | 37 |
| 12.4.2 | Calculations | 37 |
| 12.4.3 | Weight and centre of gravity reports | 38 |
| 12.4.4 | Drawings and specifications | 38 |
| 13 | Assessment of existing structures | 38 |
| 13.1 | General | 38 |
| 13.2 | Condition assessment | 39 |
| 13.2.1 | General | 39 |
| 13.2.2 | Service and operating requirements | 39 |
| 13.2.3 | Environmental conditions | 39 |
| 13.2.4 | Testing, inspection, maintenance and repair history | 39 |

| | | |
|------------------------------------------------------------------------|------------------------------------------------|-----------|
| 13.3 | Action assessment..... | 40 |
| 13.4 | Resistance assessment..... | 40 |
| 13.5 | Component and system failure consequences..... | 40 |
| 13.6 | Mitigation..... | 40 |
| Annex A (informative) Additional information and guidance | | 41 |
| Bibliography | | 64 |
