# DIN EN ISO 15156-3:2025-02 (E)

## Petroleum and natural gas industries - Materials for use in $H_2S$-containing environments in oil and gas production - Part 3: Cracking-resistant CRAs (corrosion-resistant alloys) and other alloys (ISO 15156-3:2020)

## Contents

Page

**European foreword** ... 3

**Foreword** ... 4

**Introduction** ... 6

**1 Scope** ... 7

**2 Normative references** ... 8

**3 Terms and definitions** ... 9

**4 Symbols and abbreviated terms** ... 11

**5 Factors affecting the cracking-resistance of CRAs and other alloys in $H_2S$-containing environments** ... 12

**6 Qualification and selection of CRAs and other alloys with respect to SSC, SCC, and GHSC in $H_2S$-containing environments** ... 12

6.1 General ... 12

6.2 Evaluation of materials properties ... 13

6.2.1 Hardness of parent metals ... 13

6.2.2 Cracking-resistance properties of welds ... 13

6.2.3 Cracking-resistance properties associated with other fabrication methods ... 14

6.3 PREN ... 15

**7 Purchasing information and marking** ... 15

7.1 Information that should be supplied for material purchasing ... 15

7.2 Marking, labelling, and documentation ... 16

**Annex A** (normative) **Environmental cracking-resistant CRAs and other alloys (including Table A.1 — Guidance on the use of the materials selection tables)** ... 17

**Annex B** (normative) **Qualification of CRAs for $H_2S$-service by laboratory testing** ... 63

**Annex C** (informative) **Information that should be supplied for material purchasing** ... 73

**Annex D** (informative) **Nominated sets of test conditions** ... 75

**Bibliography** ... 76
