DIN EN ISO 13628-1:2025-04 (E)

Oil and gas industries including low carbon energy - Design and operation of subsea production systems - Part 1: General requirements and recommendations (ISO 13628-1:2025); English version EN ISO 13628-1:2025

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms, definitions and abbreviated terms **1**
3.1 Terms and definitions 1
3.2 Abbreviated terms 3

4 Subsea production system **4**
4.1 General 4
4.2 System configuration 4
4.3 Overview of API 17 series documents by categories 5
4.3.1 System level documents 5
4.3.2 Subsea hardware (wellheads, trees, manifolds, structures, connectors, and pumps) 6
4.3.3 Flowlines and risers 7
4.3.4 Control systems 7
4.3.5 Intervention systems 8

5 Systems engineering **8**
5.1 General 8
5.2 Systems engineering process 9
5.3 Subsea system production assurance and reliability management 10

6 Equipment design requirements **11**
6.1 Design basis 11
6.2 Safety 11
6.2.1 General 11
6.2.2 Safety strategy 12
6.2.3 Safety by design 12
6.3 Barrier and isolation considerations 12
6.3.1 Barrier philosophy 12
6.3.2 Barrier requirements 14
6.3.3 Subsea isolation philosophy 14
6.4 Materials 15
6.5 Structural analysis 16
6.5.1 General 16
6.5.2 Wellhead, tree, and C/WO riser system analysis 16
6.6 Pumps, piping, and valves 16
6.7 Dropped objects and fishing gear loads 17
6.8 Lifting components, padeyes, and unpressurized structural components 17
6.9 Colours and marking 17
6.10 Tolerance evaluation 17
6.11 Design for installation 18
6.12 Environmental considerations 18
6.13 Evaluation of subsea pressure testing limitations 18
6.14 Design for intervention 19

7 Technology management guidance **19**
7.1 Technology development and qualification 19
7.2 Obsolescence management 20
8 Manufacture, assembly, testing, installation, and commissioning guidance **21**
8.1 Manufacture 21
8.2 Assembly 21
8.3 Testing 21
8.3.1 General 21
8.3.2 Inspection and test plans 22
8.4 Transportation, preservation, and storage 22
8.5 Load-out and installation 23
8.6 Commissioning/systems completion 24
9 Operations guidance **24**
9.1 Integrity management 24
9.1.1 Condition monitoring 24
9.1.2 Reliability data collection/reporting 25
9.1.3 Subsea production system maintenance 25
9.2 Production management 25
10 Well intervention guidance **26**
11 Decommissioning guidance **26**
Annex A (informative) **Systems engineering processes** **28**
Bibliography **29**
