

ISO 23335:2026-08 (E)

Natural gas - Upstream area - Determination of hydrate equilibrium temperature

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Principle	2
5 Test solution and gas	2
5.1 Test solution	2
5.2 Test gas	2
6 Apparatus	2
7 Procedure	4
7.1 Calibration and air tightness test	4
7.2 Purging	5
7.3 Sample preparation	5
7.4 Data acquisition	5
7.5 Cooling process	5
7.6 Hydrate formation	5
7.7 Heating process	5
7.7.1 General	5
7.7.2 Ramp heating	5
7.7.3 Stepwise heating	6
7.8 End of the test	6
7.9 Overview	6
8 Calculation	8
9 Precision	8
10 Test report	9
Annex A (informative) Method of temperature setting of gas hydrate test	10
Annex B (informative) Statistical analysis of precision experiments	11
Bibliography	20
