

# ISO 19901-1:2026-08 (E)

## Specific requirements for offshore structures - Part 1: Metocean design and operating considerations

---

| Contents                                                                                     | Page |
|----------------------------------------------------------------------------------------------|------|
| Foreword .....                                                                               | v    |
| Introduction .....                                                                           | vii  |
| 1 Scope .....                                                                                | 1    |
| 2 Normative references .....                                                                 | 1    |
| 3 Terms and definitions .....                                                                | 2    |
| 4 Symbols and abbreviated terms .....                                                        | 9    |
| 4.1 Symbols .....                                                                            | 9    |
| 4.2 Abbreviated terms .....                                                                  | 12   |
| 5 Determining the relevant metocean parameters .....                                         | 12   |
| 5.1 General .....                                                                            | 12   |
| 5.2 Expert development of metocean criteria .....                                            | 13   |
| 5.3 Selecting appropriate parameters for determining design actions and action effects ..... | 13   |
| 5.4 The metocean database .....                                                              | 14   |
| 5.5 Storm types in a region .....                                                            | 15   |
| 5.6 Directionality .....                                                                     | 15   |
| 5.7 Extrapolation to extreme and abnormal conditions .....                                   | 15   |
| 5.8 Metocean parameters for fatigue assessments .....                                        | 16   |
| 5.9 Metocean parameters for short-term activities .....                                      | 16   |
| 5.10 Metocean parameters for medium-term activities .....                                    | 18   |
| 6 Water depth, tides and storm surges .....                                                  | 18   |
| 6.1 General .....                                                                            | 18   |
| 6.2 Tides .....                                                                              | 18   |
| 6.3 Storm surges .....                                                                       | 19   |
| 6.4 Extreme water level .....                                                                | 19   |
| 7 Wind .....                                                                                 | 20   |
| 7.1 General .....                                                                            | 20   |
| 7.2 Wind actions and action effects .....                                                    | 21   |
| 7.3 Wind profile and time-averaged wind speed .....                                          | 22   |
| 7.4 Wind spectra .....                                                                       | 22   |
| 8 Waves .....                                                                                | 22   |
| 8.1 General .....                                                                            | 22   |
| 8.2 Wave actions and action effects .....                                                    | 23   |
| 8.3 Sea-states -- spectral waves .....                                                       | 24   |
| 8.3.1 Wave spectrum .....                                                                    | 24   |
| 8.3.2 Directional spreading .....                                                            | 24   |
| 8.3.3 Wave periods .....                                                                     | 24   |
| 8.3.4 Wave kinematics -- velocities and accelerations .....                                  | 24   |
| 8.4 Regular (periodic) waves .....                                                           | 25   |
| 8.4.1 General .....                                                                          | 25   |
| 8.4.2 Wave period .....                                                                      | 25   |
| 8.4.3 Wave kinematics -- velocities and accelerations .....                                  | 25   |
| 8.4.4 Intrinsic, apparent and encounter wave periods .....                                   | 26   |

|        |                                                                          |     |
|--------|--------------------------------------------------------------------------|-----|
| 8.5    | Maximum height of an individual wave for long return periods .....       | 27  |
| 8.6    | Linear and non-linear wave models .....                                  | 27  |
| 8.7    | Wave crest elevation .....                                               | 27  |
| 9      | Currents .....                                                           | 28  |
| 9.1    | General .....                                                            | 28  |
| 9.2    | Current velocities .....                                                 | 28  |
| 9.3    | Current profile .....                                                    | 29  |
| 9.4    | Current profile stretching .....                                         | 29  |
| 9.5    | Current blockage .....                                                   | 29  |
| 9.6    | Tidal currents .....                                                     | 29  |
| 10     | Other environmental factors .....                                        | 30  |
| 10.1   | Marine growth .....                                                      | 30  |
| 10.2   | Tsunamis .....                                                           | 30  |
| 10.3   | Seiches .....                                                            | 30  |
| 10.4   | Sea ice and icebergs .....                                               | 31  |
| 10.5   | Snow and ice accretion .....                                             | 31  |
| 10.6   | Thunderstorms and lightning .....                                        | 31  |
| 10.7   | Rainfall .....                                                           | 31  |
| 10.8   | Squalls and downbursts .....                                             | 31  |
| 10.9   | Internal waves and solitons .....                                        | 32  |
| 10.10  | Shelf waves and eddies .....                                             | 32  |
| 10.11  | Infra-gravity waves .....                                                | 32  |
| 10.12  | Seawater temperature .....                                               | 33  |
| 10.13  | Miscellaneous .....                                                      | 33  |
| 11     | Collection of metocean data .....                                        | 33  |
| 11.1   | General .....                                                            | 33  |
| 11.2   | Common requirements .....                                                | 34  |
| 11.2.1 | General .....                                                            | 34  |
| 11.2.2 | Instrumentation .....                                                    | 34  |
| 11.3   | Meteorology .....                                                        | 34  |
| 11.3.1 | General .....                                                            | 34  |
| 11.3.2 | Weather observation and reporting for helicopter operations .....        | 34  |
| 11.3.3 | Weather observation and reporting for weather forecasting services ..... | 35  |
| 11.3.4 | Weather observations for design purposes .....                           | 35  |
| 11.3.5 | Weather observation and reporting for climatological purposes .....      | 36  |
| 11.4   | Oceanography .....                                                       | 36  |
| 11.4.1 | General .....                                                            | 36  |
| 11.4.2 | Measurements and observations .....                                      | 36  |
| 11.5   | Data quality control .....                                               | 36  |
| 12     | Verification of weather forecast information .....                       | 37  |
| 12.1   | General .....                                                            | 37  |
| 13     | Information concerning the annexes .....                                 | 37  |
| 13.1   | Information concerning Annex A .....                                     | 37  |
| 13.2   | Information concerning the regional annexes .....                        | 37  |
|        | Annex A (informative) Additional information and guidance .....          | 38  |
|        | Annex B (informative) Northwest Europe .....                             | 107 |
|        | Annex C (informative) West Coast of Africa .....                         | 117 |
|        | Annex D (informative) Offshore Canada .....                              | 128 |
|        | Annex E (informative) Sakhalin/Sea of Okhotsk .....                      | 154 |
|        | Annex F (informative) Caspian Sea .....                                  | 178 |

|                                                           |            |
|-----------------------------------------------------------|------------|
| <b>Annex G (informative) South East Asian Sea .....</b>   | <b>196</b> |
| <b>Annex H (informative) Mediterranean Sea .....</b>      | <b>217</b> |
| <b>Annex I (informative) Brazil .....</b>                 | <b>243</b> |
| <b>Annex J (informative) US Gulf of Mexico .....</b>      | <b>256</b> |
| <b>Annex K (informative) US Coast of California .....</b> | <b>307</b> |
| <b>Annex L (informative) Other US Waters .....</b>        | <b>312</b> |
| <b>Bibliography .....</b>                                 | <b>316</b> |
