Foreword 4

Introduction 5

1 Scope 7

2 Normative references 7

3 Terms, definitions and abbreviated terms 9
3.1 Terms and definitions 9
3.2 Abbreviated terms 10

4 Design 11
4.1 Design conditions 11
4.2 Strength analysis 11
4.3 Size class designation 12
4.4 Rating 12
4.5 Load rating basis 13
4.6 Design safety factor 13
4.7 Shear strength 14
4.8 Specific equipment 14
4.9 Design documentation 14

5 Design verification 14
5.1 General 14
5.2 Design verification function test 14
5.3 Design verification pressure test 15
5.4 Design verification load test 15
5.5 Determination of rated load 16
5.6 Alternative design verification test procedure and rating 17
5.7 Design verification load-testing apparatus 17
5.8 Design changes 17
5.9 Records 18

6 Materials requirements 18
6.1 General 18
6.2 Written specifications 18
6.3 Mechanical properties 18
6.4 Material qualification 19
6.5 Manufacture 19
6.6 Chemical composition 20

7 Welding requirements 22
7.1 General 22
7.2 Welding qualification 22
7.3 Written documentation 22
7.4 Control of consumables 23
7.5 Weld properties 23
7.6 Post-weld heat treatment 23
7.7 Quality control requirements 23
7.8 Specific requirements — Fabrication welds 23
7.9 Specific requirements — Repair welds 23

8 Quality control 24
8.1 General 24
8.2 Quality control personnel qualifications 24
8.3 Measuring and test equipment 24
8.4 Quality control for specific equipment and components 25
8.5 Dimensional verification 29
8.6 Proof load testing 29
8.7 Hydrostatic testing 30
8.8 Functional testing 30

Page

9 Equipment ... 30
9.1 General ... 30
9.2 Rotary tables ... 31
9.3 Rotary bushings ... 32
9.4 Rotary slips ... 33
9.5 Spiders not capable of use as elevators ... 33
9.6 Safety clamps not used as a hoisting device ... 39
9.7 Manual tongs ... 39
9.8 Power tongs ... 40
9.9 Drawworks components ... 41
9.10 Rotary hose ... 42
9.11 Piston mud-pump components ... 43
9.12 Antifriction bearings ... 68

10 Marking ... 68
10.1 Product marking ... 68
10.2 Marking method ... 68

11 Documentation ... 69
11.1 Record retention ... 69
11.2 Documentation to be kept by the manufacturer ... 69
11.3 Documentation to be delivered with the equipment ... 69

Annex A (normative) **Supplementary requirements** ... 71
A.1 Introduction ... 71
A.2 SR1 — Proof load testing ... 71
A.3 SR2 — Low-temperature testing ... 71
A.4 SR2A — Additional low-temperature testing ... 71
A.5 SR3 — Data book ... 72
A.6 SR4 — Additional volumetric examination of castings ... 72
A.7 SR5 — Volumetric examination of wrought material ... 72

Annex B (informative) **Guidance for qualification of heat-treatment equipment** ... 73
B.1 Temperature tolerance ... 73
B.2 Furnace calibration ... 73
B.3 Instruments ... 74

Annex C (informative) **Drilling machinery component dimensions expressed in US customary units** ... 75

Annex D (informative) **Recommended piston mud-pump nomenclature and maintenance** ... 81
D.1 Piston mud-pump nomenclature ... 81
D.2 Old designs ... 81
D.3 Types ... 81
D.4 Designation ... 81

Bibliography ... 87
