Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Abbreviated terms 4

5 System configuration 4
5.1 General 4
5.2 System requirements 6
5.3 Equipment requirements 10
5.4 Documentation and data control 13

Annex A (normative) SSSV Redress report (minimum data requirements) 15

A.1 General data 15
A.2 Redress test summary 15

Annex B (informative) Installation 16

B.1 General 16
B.2 Surface-controlled subsurface safety valve 16
B.3 Surface control system 17
B.4 Subsurface-controlled subsurface safety valves -- Application to multiple and single completions 18

Annex C (informative) Operations 19

C.1 General 19
C.2 Operation and testing 19
C.3 Recommendations and required documentation 19
C.4 Review and responsibilities of ESD system testing 20
C.5 Important information on system shutdown 20

Annex D (informative) Sizing of subsurface-controlled safety valves 21

D.1 General 21
D.2 Velocity-type SSCSV 21
D.3 Low-tubing-pressure-type SSCSV 22

Annex E (informative) SSSV Testing 26

E.1 Procedure for testing installed surface-controlled subsurface safety valves -- Standard depth 26
E.2 Test procedure for installed surface-controlled subsurface safety valves -- Deepwater installations 27

E.3 Test procedure for installed subsurface-controlled subsurface safety valves 28

Annex F (normative) Failure reporting 29

F.1 Failure reporting 29
F.2 Minimum information 29
