Foreword.....	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms, definitions and abbreviated terms	7
3.1 Terms and definitions.....	7
3.2 Symbols and abbreviated terms	7
4 Requirements	9
4.1 Quality control instructions.....	9
4.2 Records retention	9
5 Calibration of equipment	9
5.1 General requirements.....	9
5.2 Reagents and materials for calibration	9
5.3 General requirements for calibration of particular apparatus	10
5.4 Frequency of calibration verification	10
5.5 Calibration verification.....	11
6 Density	12
6.1 General.....	12
6.2 Apparatus	14
6.3 Density measurement by hydrometer	15
6.4 Density correction to 21 °C (70 °F).....	16
6.5 Calculation of density in units other than kg/m ³	18
6.6 Calculation for pressure and temperature compensation.....	19
7 Crystallization temperature	21
7.1 Principle.....	21
7.2 Apparatus	25
7.3 Determination of crystallization point	26
7.4 Calculation of crystallization point	26
8 Brine clarity	27
8.1 Principle.....	27
8.2 Apparatus	27
8.3 Determination of brine clarity.....	28
9 Solids evaluation by gravimetric procedures.....	28
9.1 Principle.....	28
9.2 Apparatus	29
9.3 Preparation of glass-fibre filter disk	29
9.4 Selection of sample volume	30
9.5 Determination of total suspended solids	30
9.6 Calculation of total suspended solids	31
9.7 Calculation of precision and bias	31
9.8 Determination of volatile and non-volatile solids.....	31
9.9 Calculation of non-volatile and volatile solids	32
10 pH	32
10.1 Principle.....	32
10.2 Reagents and materials	33
10.3 Apparatus	33
10.4 Measurement of pH.....	34

	Page
10.5	Precision statement 35
10.6	Care of the electrode 35
11	Iron contamination 35
11.1	Principle 35
11.2	Reagents and materials 36
11.3	Apparatus 36
11.4	Preparation of colorimetric standards 37
11.5	Measurement of iron contamination 37
11.6	Precision statement 38
12	Daily completion fluid report 38
12.1	Principle 38
12.2	Well identification, geometry and zone data 39
12.3	System properties 39
12.4	Fluids accounting 40
12.5	Cost accounting 40
12.6	Daily commentary 40
12.7	Vendor representative identification 40
Annex A (informative)	Completion fluids report form 41
Annex B (informative)	Gas hydrates 42
Annex C (informative)	Buffering capacity of brines 43
Annex D (informative)	Pressure crystallization of brines 44
Annex E (informative)	Brine viscosity 45
Annex F (informative)	Principle of corrosion testing 46
Bibliography 48
