Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Symbols and abbreviated terms 13
4.1 Symbols 13
4.2 Abbreviated terms 15

5 General requirements 15
5.1 General 15
5.2 National requirements 16
5.3 Overall planning requirements 16
5.4 Functional requirements 17
5.5 Structural requirements 18
5.6 Design requirements 19

6 Actions and action effects 20
6.1 General 20
6.2 Environmental actions 21
6.3 Other actions 26
6.4 Partial factors for actions 31
6.5 Combinations of actions 32
6.6 Exposure levels 34

7 Structural analysis 35
7.1 General 35
7.2 General principles 35
7.3 Physical representation 38
7.4 Types of analyses 42
7.5 Analyses requirements 45

8 Concrete works 50
8.1 General 50
8.2 Design 51
8.3 Materials 54
8.4 Execution 61
8.5 Geometrical tolerances 73
8.6 Quality control — Inspection, testing and corrected actions 76

9 Foundation design 80
9.1 Introduction 80
9.2 General 80
9.3 Soil investigation 80
9.4 Representative soil properties 81
9.5 Partial factors for actions and materials 81
9.6 Geotechnical design principles 82
9.7 Bearing and sliding stability 83
9.8 Soil reactions on structures 84
9.9 Installation and removal 84
9.10 Scour 85

10 Mechanical systems 85
10.1 Introduction 85
10.2 Permanent mechanical systems 86
10.3 Mechanical systems — Temporary 92
10.4 Attachments and penetrations 96
10.5 Mechanical systems — Special considerations 96

11 Marine operations and construction afloat 98
11.1 General 98
11.2 Engineering and planning 98

12 Corrosion control 98
12.1 Introduction 98
12.2 Design for corrosion control 100
12.3 Fabrication and installation of systems for corrosion control 105

13 Topsides interface design 105
13.1 Introduction 105
13.2 Basis for design 106
13.3 Deck/shaft structural connection 106
13.4 Topsides — Structure mating 107
13.5 Transportation, tow-to-field 107

14 Inspection and condition monitoring 107
14.1 General 107
14.2 Objective 107
14.3 Personnel qualifications 108
14.4 Planning 108
14.5 Documentation 109
14.6 Important items related to inspection and condition monitoring 110
14.7 Inspection and condition monitoring types 113
14.8 Marking 114
14.9 Guidance for inspection of special areas 114

15 Assessment of existing structures 117
15.1 General 117
15.2 Structural assessment initiators 117

Annex A (informative) **Regional information 119**

Bibliography 121
