

DIN EN ISO 7263:2011-05 (E)

Corrugating medium - Determination of the flat crush resistance after laboratory fluting (ISO 7263:2011)

Contents		Page
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		5
3 Terms and definitions		5
4 Principle		5
5 Apparatus		6
6 Sampling		8
7 Conditioning		8
8 Preparation of test pieces		8
9 Procedure		8
9.1 General		8
9.2 Testing immediately after fluting		8
9.3 Testing after 30 min of reconditioning		9
9.4 Fluting and testing		9
10 Expression of results		9
10.1 Flat crush resistance		9
10.2 Flat crush resistance index		10
11 Precision		10
12 Test report		10
Annex A (informative) Maintenance of fluting rolls (horizontal type)		11
Bibliography		12
